Course Reserves in Canvas

Course reserves are high-demand resources assigned for a specific course. Instructors and TAs can submit requests for reserves directly in Canvas.

Setting Up Course Reserves in Your New Canvas Course

The Library’s course reserves system is the same as it was in Chalk. The only difference is setting up your reserves. To set up course reserves...

1. Select Library Reserves in your left navigation

2. Choose the quarter when you would like reserves available

3. Add reserve items

Reserve items can be electronic links to book chapters or journal articles, or physical items from the library’s collections that are held at a circulation desk. Books, DVDs, or other media on reserve can be borrowed for 2, 4, or 24 hours. For more questions about Library course reserves, contact the Library.
