

Advances in imaging are helping doctors
FIND BREAST CANCER EARLIER.

Maryellen Giger, PhD

*Computer-aided detection pioneer
 UChicago Medicine*

WHY COMPUTER-AIDED DETECTION OF BREAST CANCER?

Computers and artificial intelligence (AI) help find patterns of breast cancer on mammograms and breast MRIs.

HOW THIS INNOVATION MAKES A DIFFERENCE

With the addition of computer analysis, radiologists can diagnose breast cancer at an earlier stage, when it is more curable.

MY VISION AND PASSION

To develop AI further so it helps doctors and patients throughout cancer diagnosis and treatment and leads to better outcomes.

Gregory Karczmar, PhD

*Breast cancer imaging expert
 UChicago Medicine*

WHAT'S NEW IN MRI FOR BREAST CANCER?

The MRI methods we are developing will provide more effective and less expensive screening. As a result, millions of cancers will be detected sooner.

THE FUTURE OF BREAST CANCER IMAGING

We'll see more widespread use of advanced imaging for screening, enabling doctors to give more personalized treatment.

WHAT MOTIVATES ME

I'm passionate about having a positive impact on the lives of our patients. They inspire me, as does the dedication of my colleagues.

Visit pinkpowered.org to learn more and share your story

Through "Pink: Powered by People," the University of Chicago Medicine Comprehensive Cancer Center and the American Cancer Society have teamed up to raise awareness about breast cancer screening and early detection and the need for increased research funding.

Retired pro football star Desmond Clark and his daughters, Gianna and Ashanna, are championing the campaign in memory of his mother, Rena Davis, who died of breast cancer at age 59. "I want a future without breast cancer for my daughters," Clark says.

JOIN THE WALK

American Cancer Society
 MAKING STRIDES AGAINST BREAST CANCER
Saturday, October 20 - Soldier Field
8 a.m. - event opens, 10 a.m. - walk begins

Register/learn more about all eight Chicagoland walks: makingstrideswalk.org

Show your support by wearing pink on Friday, October 19 — National Mammography Day.

Let's unite together against breast cancer.
